THE WHY

When families are struggling to pay rent and buy groceries, the overwhelming cost of sending a child to school prepared and ready to learn becomes cost-prohibitive.

Not having the proper supplies not only impacts a child's academic abilities, but it also affects their social and emotional well-being, negatively impacting both self-confidence and self-esteem which are fundamental to their ability to learn.

Broward Education Foundation School Supply Center fosters equity in education by providing teachers and students with the free resources they need to succeed.

Nearly 130,000 Title I Broward County Public School children lack the basic school supplies they need to be successful in school. That's more than 1 in 2 students. School Supply Center is able to turn each dollar donated into \$9 worth of school supplies, so your gift makes a substantial impact on successful educational outcomes for both students and teachers.

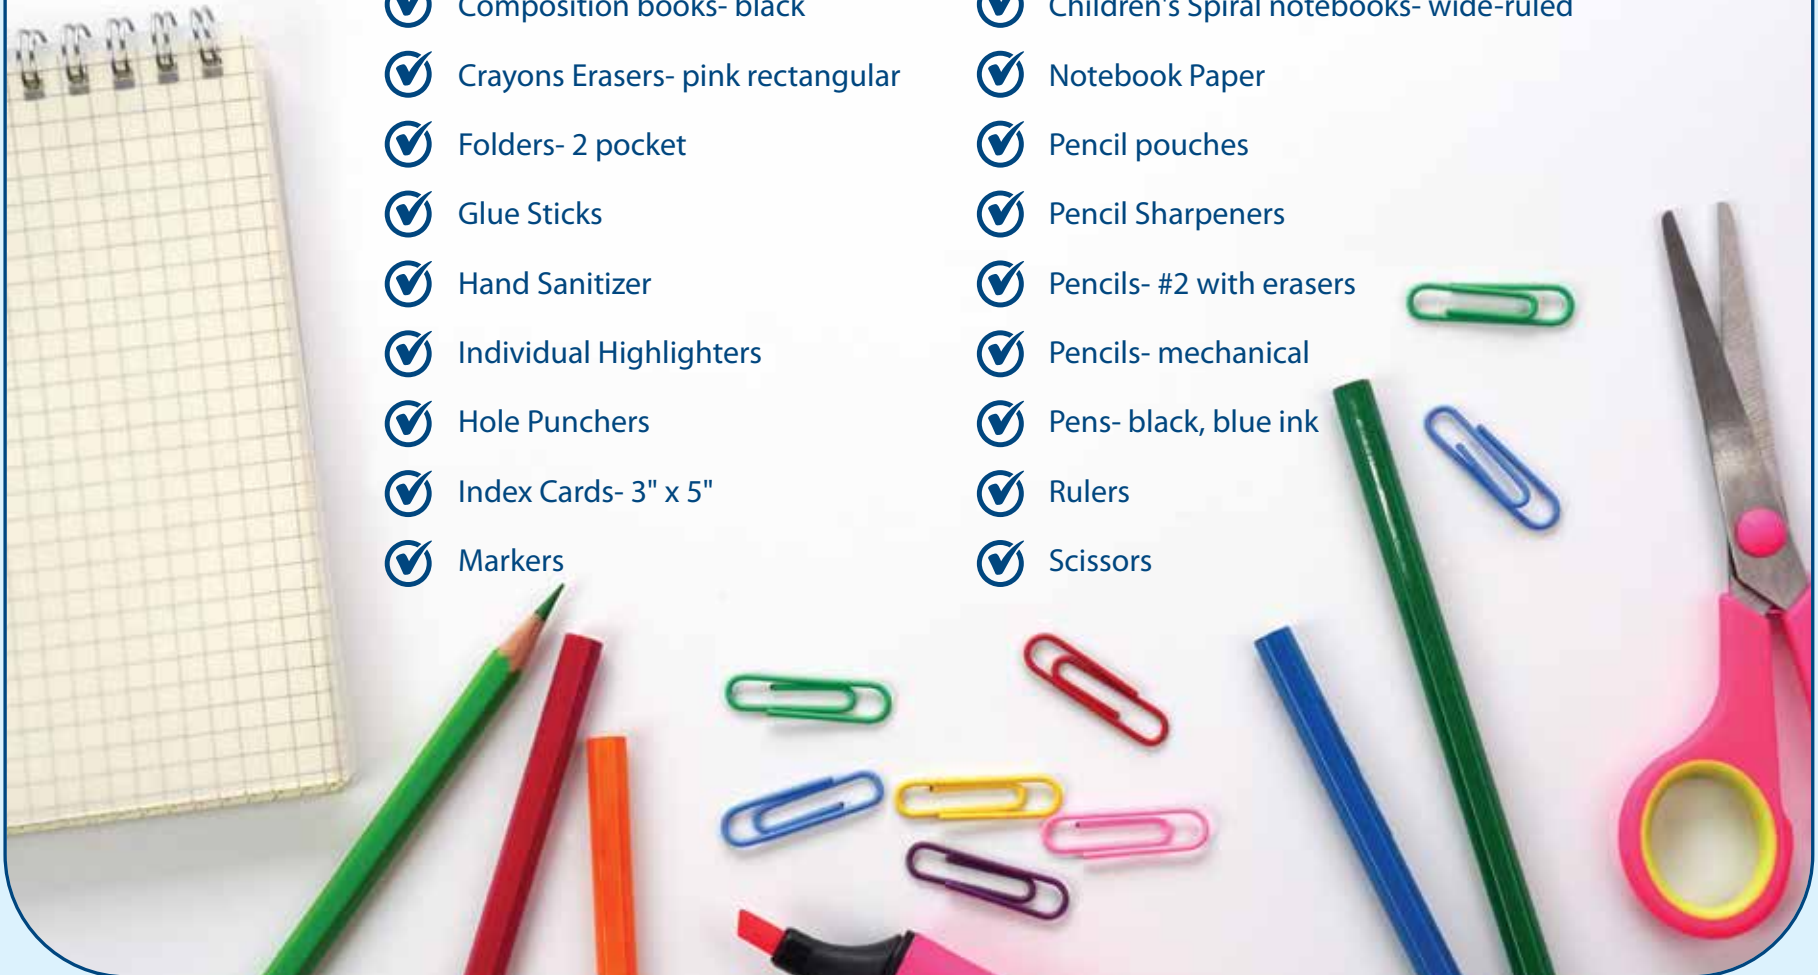

"School Supply Center has made a tremendous impact in the lives of my students. My students now have school supplies to complete their assignments at school and at home. Some students lack the necessary tools such as pencils, erasers, scissors, etc. needed to complete their homework. Thanks to the School Supply Center, my students can now complete their homework. Thank you so much for all you do!"
